RESPONSE TO RESTRICTION REQUIREMENT

SIR:

In response to the Restriction Requirement mailed October 3, 2003, the applicants hereby elect, with traverse, the claims of Species a, directed to a sintered body with specific properties (i.e., thermal expansion coefficient, modulus of elasticity, and specific rigidity) and method for producing same.

Therefore, applicants elect, with traverse, claims 1, 3, 10, 16, 18, 20, 22, 23, 25, 27, 28 and 29 for further prosecution in this application.

The Office Action at page 3, ¶2 identified Species a as claims 1, 3, 16, 18, 20, 22, 23 and 25. The Office

Action at page 3, ¶2 identified generic claims as claims 10, 27, 28 and 29.

Therefore, applicants have elected, with traverse, the generic claims and Species a for further prosecution in this application.

This election is made without prejudice to the filing of divisional application(s) directed to non-elected invention.

This election is made with traverse because although the applicants maintain that all the claims are patentably distinct, applicants maintain that the claims are sufficiently related to be properly presented in a single patent application.

CONCLUSION

An action on the merits is respectfully requested.

Respectfully submitted,

KENYON & KENYON
